

Wild Life Botanicals Sparkling Blush N.V.

Producer

Wild Life Botanicals is a pioneering English company founded by Ellie Bradshaw who wanted to find a sophisticated social alternative to high ABV Sparkling wines. Ellie's goal was to create an Ultra-low alcohol English Sparkling wine that also tied in with her appreciation of plant power and the health and wellness benefits that they bring. After months of innovative product development with a specialist team including respected naturopaths, medical herbalists, and food scientists they combined a low alcohol wine with an elixir of vitamins, minerals and botanicals that were specifically chosen for their health-giving properties, and which delivers a minimum 15% of your daily reference intake and contains less than 35 calories per glass. Wild Life represents a lifestyle choice for a new generation of conscious drinkers that prefer to be alcohol free but still want to indulge in a glass of bubbly.

Tasting Notes

Wild Life Blush has a soft fruity nose filled with aromas of wild strawberry and blossom, followed by a notably rounded, mineral palate evoking rosehip tea, strawberries and cream, and Cornish orchard fruits such as crab apple and red apple.

Food

Serve as an aperitif or go wild and create your favourite cocktail.
